

## Summer Camps 2019

### Summer Camps are open for Registration!

We have some very engaging Camp Themes this year as we strive to captivate your children's imaginations, creative expressions and varied interests. Our facilitators are well experienced and very excited to be sharing their craft and specialty with your children.

We strive to maintain a Facilitator/Counsellor ratio to campers of 1:5 and sometimes better! Children are well monitored, and the low ratio affords each child a fair amount of freedom and a lot of support within the structure of the day. Lunch times are supervised.

Every session will touch on various media and campers will be encouraged to stretch their imaginations and powers of observation. Time will be spent sketching and rendering, learning to "see" and draw, learning to use water colour, acrylics, pastel, pen, learning to make decisions for desired results. We will experiment with colour mixing, various texture techniques and apply to on-going work. Every week is different.....experiences and activities will not be repeated from week to week.

The day's lessons and presentations are the same no matter the age of the child. It has been my experience that working with various ages within the group offers each child the opportunity to learn and grow, to become part of the "family" group and to learn and apply at his/her own respective rate of development.

**Mornings** will be spent on **Fine Arts projects**, exploring and experiencing various techniques and media, as well as supporting the theme of the week. Weather permitting, much of the morning activities will be outside and at River Mill Park. The goal is to allow children to learn and then apply technique in self-expression. **Afternoons** will be dedicated to a themed specialty with allotment of free time.
