DOG Ministries

Divine Oneness &

Guidance

@dogministry

I am Reverend Shawna Lafreniere. I am a member of the Canadian International Metaphysical Ministry. I have completed the Ministerial training at TRS School of Metaphysical Healing. My Ministry "Devine Oneness and Guidance" is focused on Love as taught in "A Course in Miracles" whereby I connect people to their Truth and Personal Greatness. I am an Inspirational speaker. I facilitate a weekly group study of ACIM, and additionally offer Workshops, Individual Spiritual Guidance, and Healing Support and Fellowship.

I am an Ordained Minister & Licensed in the province of Ontario offering

Marriage Ceremonies.

I will work with you to create a service that will reflect your unique journey. Ensuring you peace of mind, to experience the Love and Joy of your special day

Baby Blessings,

One of the great joys of being a celebrant is collaborating with very diverse families to honour their child (or children in some cases) with a special ceremony. Whether a child comes to a family by birth or by adoption, it is a heart-opening experience to *intentionally* gather celebrate this girl or boy, and build community. I offer parents options on what they would like to call their child's ceremony. Some call it a Baby Blessing. Others call it a Naming Ceremony. I also like Child Honouring! As increasing numbers of parents discover this extremely meaningful alternative to baptism or christening... my children's ceremonies are a vibrant part of my ceremonial work. And what joyful 'work' it is!

Memorials,

As a Celebrant it is my life's purpose to serve our community in ceremony during times of joy and in times of great loss and sadness. While it is such a delight to companion couples on the journey to their wedding day, it is a different kind of privilege to guide families grieving the loss of someone they love.

Pet Blessings & Pet Memorials and Grief Counseling

Since pets are regarded as family members, it is normal to grieve for them as such. Our pets accept and love us unconditionally and never pass judgment. We need to let our feelings of grief play out and creating a memorial service or funeral helps us to properly deal with our loss while giving us the opportunity to celebrate their life.
