

Introduction to Shamanic Journeying

Learn to journey or deepen your current practice. Journeying is a method of going inwards to directly access information for your own life and healing from your Helping Spirits.

The course will teach you about the 3 inner dimensions or worlds and will allow for guided practice to access those.

Learn ceremonies based on the Medicine Wheel and our Allies in Nature (animals, the elements, and Spirits from the other realms) which are an integral part of the journey practice.

Journey to meet and work with your Power Animal and other Nature Spirits.
